A propos de la CELC

La Confédération Européenne du Lin et du Chanvre [CELC] est l'unique organisation européenne agro-industrielle à regrouper et fédérer tous les stades de production et de transformation du lin et du chanvre. Fondée en 1951, elle est l'interlocutrice privilégiée de 10 000 entreprises implantées dans 14 pays de l'U.E., maîtrisant la fibre, de la plante au produit fini.

Seule organisation européenne de référence, la CELC encourage le dialogue avec les pouvoirs publics nationaux et européens.

Lieu de réflexion et d'analyse conjoncturelle, de concertation et d'orientation stratégique, la CELC anime une filière d'excellence dans un contexte mondialisé.

Une mission garantie par EUROPEAN FLAX®, label de traçabilité du lin fibre de qualité premium cultivé en Europe de l'Ouest vers tous ses débouchés et dont toutes les étapes de transformation sont auditées par l'organisme indépendant de certification leader [Bureau VERITAS]. Une traçabilité qui lorsqu'elle intègre le 100 % made in Europe se labellise MASTERS OF LINEN®, marque déposée et club d'excellence des filateurs, tisseurs, tricoteurs et éditeurs européens.

La CELC crée l'environnement favorable à la compétitivité des entreprises industrielles grâce à un triptyque d'actions d'information, de défense et de promotion. Une stratégie multicanale qui s'inscrit à l'international en stimulant l'innovation et en s'appuyant sur les performances de fibres naturelles aux qualités environnementales confirmées. Un corpus d'actions animé, produit et promu par sa plateforme dédiée CELC Développement.

Le LINEN DREAM LAB est le show-room d'expression dédié à la créativité et à toutes les innovations textiles, de la mode à l'art de vivre et au design, jusqu'à ses développements composites. Réservé aux professionnels, il propose sur rendez-vous ses services d'accompagnement à la création, d'aide au sourcing - matériauthèque, filothèque, tissuthèque - et de formation.

About CELC

The European Confederation of Flax and Hemp (CELC) is the only European agro-industrial organisation federating all the stages of production and transformation of flax and hemp. Founded in 1951, It is the privileged spokesperson for 10,000 European enterprises across 14 countries, overseeing fibre development from plant to finished product.

The only European organisation of reference, CELC encourages dialogue with national and European public authorities.

As a think tank and place of market analysis, dialogue and strategic orientation, CELC presides over an industry of excellence in a globalised context.

This mission is guaranteed by EUROPEAN FLAX®, the traceability label for all applications of premium-quality flax fibre grown in Western Europe with each stage of its transformation and processing audited by the leading independent certification body [Bureau VERITAS]. This traceability, when combined with 100 % Made in Europe transformation, is given the label MASTERS OF LINEN®, a registered trademark and a club of excellence for European spinners, weavers, knitters and éditeurs.

CELC creates an environment conducive to industrial enterprise competitiveness following a three-pronged approach comprising information, defence and promotion. This internationally-focused multichannel strategy stimulates innovation and builds on the performance of natural fibres with proven environmental qualities. A corpus of actions facilitated, produced and promoted by its dedicated platform CELC Développement.

The LINEN DREAM LAB is the showroom of expression dedicated to creativity and all aspects of textile innovation, from fashion through lifestyle and design, along with composite development. Reserved for industry professionals, it offers by-appointment services supporting creation and sourcing - materials, yarn and fabric libraries - along with training and education.
